HILDEGARD ERKERT

I Met Mr. Erkert a few years ago when he came to our home to fix a grandfather clock. We visited with him about Germany, his wife, and clock repair. Little did I know some years later I would meet his lovely wife, Hildegard. A native of Germany, Hildegard loved to spend time in Mexico and Germany. She loves the ocean. Hildegard joined the PAG in 1985. Like many of our other members, she too had been a former member of the Valley Art League.

Her early art works were more realistic; however, her work became more abstract after enrolling in Ruth Palmisano's class. She created works in Ruth's class that were over the top in originality and creativity. Hildegard is very knowledgeable about the subject of art, and has the ability to create beautiful original art work with ease. Hildegard Erkert - an exuberant, expressive, warm, friendly person!
